- MySQL, SQLite
- HTML
- CSS
- Node
- Node.js
- React.js

LANGUAGES

- English (Intermediate)
- Turkish (Native)
- German (Basic)

PROFILE

Motivated Computer Engineering student with a strong passion for software development and problem-solving. Proficient in Java, JavaScript, and C, with hands-on experience from academic projects. Eager to contribute, learn, and grow in dynamic environments. You can check my all projects via github link.

EXPERIENCE

Syllabus Manager

Used Technologies: Java, JavaFX, SQLite

- Syllabus Manager is a centralized, template-driven platform that enables instructors to quickly personalize and publish interactive class syllabi
- It is a desktop application
- App is keeping data with SQLite database system

Misti Game

Used Technologies: Java, Object-Oriented Programming, File I/O

- Used Java, Object-Oriented programming and File I/O for this card game project
- It provides text-based turkish card game against bot
- Three different bot can be selected: novice, regular, expert.

Book Catalog

Used Technologies: Java, JavaFX, JSON

- It is a book cataloguing application. You can add your books manually or you can import a bunch of book list to the application, if you have
- You can add details about book, cover image, ISBN, date, etc.
- It provides an export feature for if you want to take the data of books that you have added before (It exports them with JSON technology)

Ringbuffer And Daemon Systems

Used Technologies: C, Threads

- Developed a multithreaded daemon system in C, implementing a ring buffer for efficient byte storage and processing.
- Applied synchronization techniques to handle concurrent data access and prevent race conditions.
- Also this was my first freelance work experience

EDUCATION

Computer Engineering

Izmir University Of Economics

2022-Present
